

These are criteria that you might use when reviewing apps with your 5-paragraph essays...

Audio apps - Is the music streamed, or can you choose individual songs?

Users - Is this app used by one user, or can you interact with multiple users?

Usefulness - Did you find the app useful?

Age - Must you be of a certain age to use the app? What is the target age group for the app; very young, middle school, high school/college?

Ease - Was the app easy to use, or difficult? How long did it take to master the app?

Who/what type of person would you recommend this app to?

Full/Trial - Was this app fully functioning or was it a trial version? If it was a trial version would you consider/recommend getting the full version?

Overall, did you like or dislike the app?

When choosing the app, you probably read the Overview, Reviews, and Support descriptions. Did the app live up to these descriptions?

Did the app live up to your expectations?

Would you recommend this app to others?

Missing - Were there things you couldn't do or control, or actions that you felt were missing that would improve the app?

Bugs - Were there any problems with the app, such as functions that wouldn't work, or having the screen freeze up?
